

John Lubia

LUBIA NAMED NEW DSI I/T DIRECTOR

Developmental Services, Inc. has named John Lubia of Seymour, Director of Information Technology. Lubia will provide administrative management of DSI's information technology systems.

"We're very excited about John and the talent he brings to DSI," said DSI Executive Director of Client Support Services. "The additional technological support that John can provide will help DSI operate more

efficiently while enhancing our service delivery for the consumers with disabilities we serve."

In addition to providing technology support for administrative staff and direct care providers, Lubia will assist with ensuring organizational compliance, security protocol, and service quality.

Lubia comes to DSI from Chris Broughton and Associates in Seymour where he was Senior Technology Consultant.
